SQUARE FOOT GARDEN

GARDEN FOR GIVING....

Once again this year's youth community garden is the Square Foot Garden! This garden is the latest in being GREEN. Did you know you can feed one person with a Square Foot Garden in one year? All kid participants will each get their own square foot garden to design, plant, maintain, and then harvest. The gardeners will discover GREEN efficiency and learn that even a little bit of space can go a long way! They will also learn about nutrition, pest control, feeding, weeding, and overall garden care! This outdoor educational program is to engage children in active outdoor fun and introduce them to basic gardening skills and nutrition. The Rockingham Cooperative Extension Service and Newmarket Recreation sponsor this project annually.
